WORK EXPERIENCE

GrowthAXL

Hyderabad

Fullstack Developer

Apr 2024 - Present

- Spearheaded the full-stack development of 3+ web and blockchain applications from inception to deployment, utilizing back-end, front-end, and database technologies to deliver scalable solutions.
- Designed and developed Microauth, a secure authentication system with blockchain integration and wallet creation, as a solo developer, enhancing user privacy and data integrity.
- Eliminated third-party integration costs by developing an in-house solution, resulting in \$57k cost savings for the company.
- Led a team of 6 developers through the end-to-end development lifecycle, ensuring successful deployment of 4+ solutions on Azure as web apps and containerized applications, improving deployment efficiency by 15% and reducing cost by 70%.

Miraki Technologies

Hyderabad

Fullstack Developer

Jan 2023 - April 2024

- Developed user-friendly interfaces using React and Redux, resulting in a 10% improvement in user satisfaction scores.
- Designed and implemented a library of reusable code components using React, reducing development time by 20% and project costs by 15% across 5+ internal projects.
- Led a team of 4 developers in the development of 3 internal tools and 4 client-facing products, ensuring on-time delivery and adherence to client specifications.

Thinkwik Pvt. Lt

Ahmedabad

Software Developer

May 2022 - December 2022

- Developed and deployed 2+ full-stack applications using ReactJS and NextJS, resulting in improved application performance and scalability.
- Collaborated with a team of 8+ developers on 2 large-scale projects using Agile methodologies, contributing to the successful launch.

Sophos Technologies

Ahmedabad

Technical Development support

December 2016 - April 2022

- Proficient in Fullstack JavaScript frameworks and Cybersecurity concepts to work on Security softwares.
- Developed Internal tooling for Firewall and Antivirus simulations and the Software for Sophos cloud and Firewall.
- Contributed to large multi-developer projects using agile methodology and security patching.
